

Flor

Diagnostics Pvt. Ltd

ABOUT US

We, Flor Diagnostics Private Limited Company was established with highly qualified and dedicated Medical professionals. Flor Diagnostics Company introduced a new concept in the distribution of high-end medical related machineries, devices and hospital disposables. Our main goal is to meet the needs of our customers by supplying best equipment that enable them to be used safely and at a competitive price that fulfill the industry standards.

Flor Diagnostics Company is the exclusive distributor of many laboratory machineries all over the world. We are experts in Biochemistry Analyzers, Hematology Analyzers, Serology Analyzers, Immunoassay Analyzers, Protein Analyzers and Virology. Our Biomedical Engineers are able to install, train and service for all the machineries and equipment.

MISSION, VISION & COMMITMENT

We are not just representing the number of Machineries, but we are focused on providing you the best Medical Analyzers. Our main focus is the development and distribution of highly innovative devices with special dedication towards the Medical Laboratory field. Within a short period of time Flor Diagnostics Company managed to get significant market share in the majority of the Indian markets. The specific dedication of Flor Diagnostics Company towards highly innovative technologies is the main driver in this company and will lead to new product developments to treat patients.

OUR VALUES

We give Values for Quality, Integrity, Innovation, Excellence, Care, Team Work, Minimal Overheads and After Sales Service.
